 - **Containerization** (Docker)
 - **Documentation** (Notion)
 - **Collaboration** (Slack, Teams)
 - **Project Management** (Trello, Jira)
-

WORKS & PROJECTS

SHONEN TEEZ

Dec 2023 - Feb 2024

E-Commerce Web App

- This is an **E-shop** for an emerging retail business in retail of anime t-shirts. The goal is to **control supply**, orders, **payments**, and **delivery** while establishing a solid **brand identity** on the market.
- The website would be **modernistic** and **colorful**, fitting the product.
- The **MVP version** is still under testing and would soon become an **MMP**.

LINGER

Mar 2024 - Jun 2024

Language Learning Web App

- As the **Project Manager** for this school project, I decided to use the **SCRUM** methodology to fit our project team, skill level, **REST API** structure and time.
- This was a school project with the aim of giving a platform to learn Cameroonian mother-thongs. For the sake of development, the **MVP** version only features a English and French.

SNEAKER DEALZ

Dec 2023 - Feb 2024

E-Commerce Web App

- This is an E-shop for a local sneakers retail business.
 - Its **gorgeous** and **simplistic design** boosted the **sales** and marketing far beyond the target customers.
 - It also gave a the retailer **stock control**, orders management, catalog distribution and improved **brand identity**, all in one package. The site is already open and available for orders.
-
