## EDUCATION

### BSC - COMPUTER SCIENCE

#### ICT UNIVERSITY

OCTOBER 2022 - JUNE 2025

5 / 8 Semesters Completed

## TECHNICAL SKILLS

### PROGRAMMING LANGUAGES

Python	<div></div>
JavaScript	<div></div>
Typescript	<div></div>
Html	<div></div>
CSS	<div></div>
SQL	<div></div>

### FRAMEWORKS

Next JS	<div></div>
React JS	<div></div>
Express JS	<div></div>
Django REST	<div></div>

### ENGINEERING

Software Design	<div></div>
Project Management	<div></div>
Cloud Computing	<div></div>
SaaS Development	<div></div>

## CERTIFICATIONS

#### IBM Full Stack Developer

IBM | Coursera

#### Meta Front End Developer

Meta Facebook | Coursera

#### Linux Cloud and DevOps

Coursera

#### Database Structures and Management with MySQL

Coursera

# KEABOU NGUEMATIO THOMSON

## SOFTWARE ENGINEER

A dedicated and skilled Computer Science Practitioner experienced in web design, project administration, and full stack application development

## PROJECTS

### LINGER

APRIL 2024- NOW

#### SCRUM MASTER

Developed **Linger** a language learning web app with a **REST architecture**. Used **Express.js** for the backend API and **Next.js** for the frontend. The app features interactive quizzes, and lessons. Currently **hosted** and under testing and content management. Ensured robust **data handling**, **responsive design**, and **scalability**. Technologies: **Express.js**, **Next.js**, **Postgresql**. Methodology: **SCRUM**

### SNEAKER DEALZ

FEBRUARY 2024- MARS 2024

#### SCRUM MASTER | PROJECT OWNER

Developed **Sneaker Dealz**, an e-commerce site for selling sneakers using **Next.js** for fast, **SEO-optimized** performance. Designed a user-friendly interface with **Shadcn-UI** and **Figma**. Fully **hosted** and soon accepting **PayPal** and **credit card** payments. Focused on scalability, performance, and seamless navigation. Technologies: **Next.js**, **Shadcn-UI**, **Figma**. Methodoly: **SCRUM**

### THOMMY STORE

JULY 2023- AUGUST 2023

#### SOLE ENTREPRENEUR

Developed **Thommy's Store**, an e-commerce site for tech products, using **Django REST** for the **backend** and **ReactJS** for the **frontend**. Created a robust, scalable platform supporting various product categories. Emphasized seamless user experience. Utilized **AGILE** methodology. Technologies: **Django REST**, **ReactJS**

### EDIFY (IN PROGRESS)

MAY 2024- NOW

#### FULL STACK DEVELOPER

Developing **Edify**, a media entertainment platform focused on gospel content in audio and video formats. Designed to be **fully cross-platform**, utilizing **Next.js** for both the **frontend** and **backend**. **Docker** is used for **optimized deployment** across mobile, desktop, and web. The project aims to deliver a seamless and high-performance user experience. Technologies: **Next.js**, **Docker**. Methodoly: **SCRUM**

## SOFT SKILLS

### PROBLEM SOLVING

Efficiently identifies and resolves complex technical issues, ensuring smooth and uninterrupted project progress.

### COMMUNICATION

Clearly articulates technical concepts to both technical and non-technical stakeholders, fostering effective collaboration.

### TEAM WORK

Collaborates effectively with diverse teams, contributing to a positive and productive work environment.

### ADAPTABILITY

Quickly learns and applies new technologies and methodologies, staying current in a rapidly evolving industry.
